

VersaMat®

Medium duty low profile pedestrian tread mat

Ground Protection Matting - Medium Duty Ground Protection Matting VersaMat®

VersaMat® is a high load capacity mat with a low profile traction surface. Featuring a load capacity of up to 120 tons*, VersaMat® is lightweight, flexible, and durable. It's available in a range of sizes and is ideal for use in events, construction, ground work, and transmission industries.

- Load bearing capacity up to 120 tons - dependent on sub-surface
- Prevent equipment from getting stuck, even in soft conditions
- Prevent damage and leave turf smooth, the mats disperse weight evenly to prevent soil compaction or ruts.
- The mats are lightweight, which allows being man-deployed, there is no need for extra machinery in the field
